Subject: Status of my review on NCEA Feb 1 and 8 peer review submissions

Dear Catherine and others,

As promised earlier, I have done a cross-check of all the NCEA materials that should have been in the final peer review report. Given the status (see below), the fact that it is double-sided copying and (conveniently) the last Appendix (J) of the report, Bill and I have decided that it is best to resubmit copies to (1) Catherine, (2) Peter, (3) RTI and (4) CEOH. These will be sent by Express Mail and hand-delivered to RTI on Monday for their records.

NCEA also again requests that the other two missing items per Steve Lamm E-mail (6/17/99) be forwarded if found: (Montreal article submitted by Steve Lamm a report from Larry Ladd?).

Have a good weekend,

Annie.

February 1 Submission:

Cover Memo missing
Attachment #1: Out of order
Attachment #2: O.K.
Attachment #3: O.K.
Attachment #4: Out of order (complete)
Attachment #5: Out of order (complete)
Attachment #6: Out of order (complete)
Attachment #7: Out of order (complete)

February 8 Submission:

Cover Memo O.K.
Attachment #1: O.K.
Attachment #2: Missing entirely. *NOTE:* Second page of Jarabek (1999) memo according to Steve Lamm (E-mail 6/17/99) is non-continuous. RTI found the attachment today and I have confirmed that in that version from them there is a paragraph missing and the second page will be corrected for the final report per request. The manuscripts that were attachments a nd b of this are found later in Attachment #5.
Attachment #3: Out of order. (Jarabek and Clegg, 1999 memo is inserted in the middle of data tables from York organ weight data submission),
Attachment #4: Out of order.
Attachment #5: Missing Channel (1999) consultative letter.
